📍 Greater Noida, UP

About

Computer Science undergraduate with strong programming and problem-solving skills. Interested in Software Quality Assurance, Automation Testing, API Testing, and delivering reliable software products through effective testing practices.

Education

GL Bajaj Institute of Technology and Management

B.Tech – Computer Science & Engineering

Greater Noida, U.P.

2023 – Present

Maharishi Vidya Mandir School

Senior Secondary Education (CBSE)

Prayagraj, U.P.

Completed

Skills

Core: DSA, Computer Networks, Design & Analysis of Algorithms, OS

Programming: C/C++, Python, HTML, CSS, JavaScript, Bootstrap, Pandas/NumPy, Python, PyTorch, SQL, API Testing

Cloud: Vercel

Domains: Web Development, Machine Learning

Tools

Operating System : MacOS, Kali Linux

Tools: VS Code, Git, GitHub, Cisco Packet Tracer, Wireshark, Brupsuite, Agile/JIRA, Selenium WebDriver

AI Tools: Jupyter Notebook, Canva, Git/GitHub, Hugging Face, Google Colab

Projects

FutureCrop — ML Agriculture Prediction System

- Developed an end-to-end ML prediction pipeline using 2,200+ agricultural records, performing preprocessing, feature engineering, model training and hyperparameter optimization.
- Trained Random Forest (89%) and XGBoost (92%) models with hyperparameter tuning
- Integrated weather data, improving prediction accuracy by 15%
- Project Link: [future-crop.vercel.app](#)

LegalSangam — AI Legal Assistance Platform

- Built AI legal platform with chatbot and lawyer discovery for 100+ users
- Architected real-time peer-to-peer video consultation using WebRTC with 99% connection success
- Developed geolocation-based lawyer search across 12+ practice areas using MongoDB aggregation
- Collaborated with cross-functional teams including designers and developers during feature development

Password Cracking Playground

- Developed a cybersecurity learning project demonstrating password cracking techniques in a safe environment
- Implemented brute force to showcase how weak passwords can be compromised
- Highlighted importance of strong password policies by simulating real-world attack scenarios

Certifications

- **Palo Alto:** Cyber Security Fundamentals, Network Security Fundamentals, Cloud Security Fundamentals, Security Operations Fundamentals
- **Cisco:** Introduction to Cyber Security, Python Essentials 1
- **Eduskills :** Virtual Internship

Soft Skills

- Problem Solving, Communication, Team Collaboration, Time Management
